Fun Research:

In the Bible, the meaning of names were very important. That's why God changed Abram's name to "Abraham", and Sarai's name to "Sarah". "Abram" means "exalted father", while "Abraham" means "father of many." "Sarai" means "my princess", while "Sarah" means "princess". God was showing that many nations would come from the two.

Now it's your turn! Write your name down, then do some research and ask your parents what your name means. If they don't know, ask an adult to help you search the meaning on the internet. Once you find the meaning, write it next to your name and compare to other family members or friends! To make it more interesting, also ask your parents why they chose that name for you.
